

Ideation Phase

Brainstorm & Idea Prioritization Template

Date	1 Oct 2026
Team ID	6ab63f444173fc565b5466f9
Project Name	Auto Ticket Classification using Flow Designer
Maximum Marks	4 Marks

Brainstorm & Idea Prioritization Template:

Brainstorming provides a free and open environment that encourages everyone within a team to participate in the creative thinking process that leads to problem solving. Prioritizing volume over value, out-of-the-box ideas are welcome and built upon, and all participants are encouraged to collaborate, helping each other develop a rich amount of creative solutions.

Use this template in your own brainstorming sessions so your team can unleash their imagination and start shaping concepts even if you're not sitting in the same room.

Step-1: Team Gathering, Collaboration and Select the Problem Statement

Problem Statement: Manual ticket classification can cause inconsistent categorization, delayed routing, and increased effort for support teams.

Step-2: Brainstorm, Idea Listing and Grouping

Ideas: 1) Automatically classify tickets by category. 2) Route tickets to the appropriate assignment group. 3) Apply priority based on ticket details. 4) Use Flow Designer to automate classification and routing. 5) Reduce manual triage effort.

Step-3: Idea Prioritization

Priority: Automate ticket classification and assignment first; then apply priority handling and notification steps to improve the overall ticket workflow.
