

Project Testing, Validation & Signoff Report

Auto Ticket Classification using Flow Designer

PROJECT TITLE

Auto Ticket Classification using Flow Designer

TEAM ID

6ab63f444173fc565b5466f9

VALIDATION DATE

2 Oct 2026

FINAL STATUS

Approved for Production

1. KEY TESTING METRICS SUMMARY

100%

PASS RATE

0.84s

EXECUTION TIME

98.2%

CATEGORIZATION
ACCURACY

0

CRITICAL DEFECTS

2. NON-FUNCTIONAL & PERFORMANCE VERIFICATION

- Latency Benchmark:** Flow Designer execution finishes within **0.84s**, well below the max 3.0s threshold.
- Concurrency Testing:** Successfully processed 25 concurrent incoming ticket requests without execution delay or dropping workflows.
- Security Verification:** Access controls verified to ensure administrative permissions for updating Flow Designer logic.

3. SIGN-OFF MATRIX

Stakeholder Role	Verification Details	Approval Status
Project Team	Team ID: 6ab63f444173fc565b5466f9	PASSED
QA Lead	Execution Matrix & Non-Functional Checks	PASSED
Workflow Engine	Flow Designer Production Instance	APPROVED
